Time is Running Out to Preserve Health Care for New Jersey Residents

Call Congress NOW!

There may be a vote on the American Health Care Act TOMORROW!

Last week, we expected a vote on Friday or Saturday, which was delayed (again). But the repeal effort isn't going away. Negotiations continued over the weekend and new reports anticipate a vote on Wednesday - TOMORROW.

The vote is extremely tight! That means that it is absolutely critical that New Jersey's four Congressional Republicans who previously opposed TrumpRyanCare don't flip back toward repeal - including Leonard Lance.

So please - here's what you can do:

1. Keep those phone calls to Rep. Lance's office going. I'm sure you all have the phone number programmed into your phones by now - but if you don't: 202-225-5361 (D.C office), 908-788-6900 (Flemington), 908-518-7733 (Westfield). Call until you talk to someone. Call every day!

2. Once you've done that there are 2 additional calls to Congressmen we ask that you make, one to Rodney Frelinghuysen (NJ11) at 973-984-0711 and one to Tom MacArthur (NJ3) at 202-225-4765.

Rodney Frelinghuysen is the Chair of the House Appropriations Committee. His announcement that he would not support the AHCA in March ultimately led to the bill being pulled from consideration. However, he has been under intense pressure from GOP Leadership and the Trump Administration to support the bill, they have even threatened his chairmanship. We need Rep. Frelinghuysen to stand up for his constituents and stand up to Leadership by rejecting the AHCA. It would be unconscionable to value a chairmanship over the well-being of 24,000 of his own constituents who stand to lose health care under the AHCA. Call Rep. Frelinghuysen today at 973-984-0711.

The reason the American Health Care Act is even being considered again is
because of Tom MacArthur. When everyone considered the bill dead, Tom MacArthur continued negotiating with the Trump Administration and the far right Freedom Caucus to cut a deal that could get a bill passed. That deal, the MacArthur Amendment, makes what was already a cruel and harmful bill even worse. The changes that Tom MacArthur negotiated endanger preexisting condition protections as well as essential health benefits for millions of Americans. Call Tom MacArthur today at 202-225-4765. Ask him to drop the MacArthur Amendment and not to risk the health care of nearly 34,000 of his constituents.

3. Come to the Wednesday night vigil in Westfield - 4:30pm - 6:30pm. You can RSVP and find more info here.

Please continue to make your voices heard. It is the reason we have been able to fight off efforts to repeal the Affordable Care Act thus far! Call TODAY and pass this along to your networks!
